## SHARP - GLOBAL ANAESTHESIA Specialist Clinical Fellow

Interested in remote and global anaesthesia?

Unsure how to prepare for working overseas?

The **SHARP - Global** Fellowship is the perfect opportunity to gain invaluable practical experience in global anaesthesia!

This brand new year-long bespoke post has been crafted to provide a practical introduction to remote and global anaesthesia.

The successful candidate must have at least one year of anaesthesia experience. You will receive regular immersive in-situ simulation training, teaching sessions and practical clinical work which includes focus on adapting practice to resource limited environments and familiarisation with some of the equipment used in such places.

Hereford County Hospital has a partnership link with St Augustine's Hospital in Tanzania. The candidate will be actively involved in projects to support safe surgery in our partner hospital, as well as opportunities for visits to provide training for staff there. The candidate will be encouraged and mentored to gain a wide breadth of knowledge, skills and understanding
